Indeed, a B2B company requires specific strategies to differentiate itself via customer experience. First, in B2B there is not one single customer; ensuring a great and consistent experience for all isn't always possible. For example, one European corporate bank wanted to optimize its corporate-lending process.

Business to business markets are considerably more challenging than consumer markets and as such demand a more specific skillset from marketers. Buyers, with a responsibility to their company and specialist product knowledge, are more demanding than the average consumer. Given that the products themselves may be highly complex, this often requires a sophisticated buyer to understand them. Increasingly, B2B relationships are conducted within a global context. However all textbooks are region-specific despite this growing move towards global business relationships - except this one. This textbook takes a global viewpoint, with the help of an international author team and cases from across the globe. Other unique features of this insightful study include: placement of B2B in a strategic marketing setting; full discussion of strategy in a global setting including hypercompetition; full chapter on ethics and CSR early in the text; and detailed review of global B2B services marketing, trade shows, and market research. This new edition has been fully revised and updated with a full set of brand new case studies and features expanded sections on digital issues, CRM, and social media as well as personal selling. More selective, shorter, and easier to read than other B2B textbooks, this is ideal for introduction to B2B and shorter courses. Yet, it is comprehensive enough to cover all the aspects of B2B marketing any marketer needs, be they students or practitioners looking to improve their knowledge.

The poor in developing countries are particularly vulnerable to adverse shocks. They have little or no access to public social insurance, are unlikely to save in adequate amounts to rely fully on self-insurance or informal insurance, face restricted access to private market insurance or credit mechanisms, and have little or no political voice to demand the protection of safety net programs. In this book, the authors analyze the best ways to help the poor manage risks such as health shocks, unemployment, sudden drops in income, and old age. Unemployment benefits, employment programs, means-tested social assistance, social investment funds, and micro-finance for consumption-smoothing purposes are the leading options considered. The

book provides a careful assessment of issues that governments need to address in the process of designing appropriate safety nets.

This is one of the first books to probe deeply into the art and science of branding industrial products. The book comes at a time when more industrial companies need to start using branding in a sophisticated way. It provides the concepts, the theory, and dozens of cases illustrating the successful branding of industrial goods. It offers strategies for a successful development of branding concepts for business markets and explains the benefits and the value a business, product or service provides to industrial customers. As industrial companies are turning to branding this book provides the best practices and hands-on advice for B2B brand management.

This book provides knowledge and skill-building training exercises in managing marketing decisions in business-to-business (B2B) contexts.
