Hell, in many religious traditions, the abode, usually beneath the earth, of the unredeemed dead or the spirits of the damned. In its archaic sense, the term hell refers to the underworld, a deep pit or distant land of shadows where the dead are gathered. From the underworld come dreams, ghosts, and demons, and in its most terrible precincts sinners pay—some say eternally—the penalty for ...

A humorous look at particular aspects of the modern world set in encyclopedia format, from accordions to zippers, written in the perspective of Satan to his demon followers as a primer on Earth in preparation for invasion.

A tour de force of darkness, Encyclopaedia of Hell is a manual of Earth written by Lord Satan for his invading hordes of demons, complete with hundreds of unpleasant illustrations, diagrams, and a comprehensive and utterly repulsive dictionary of Earth terms. Since the customs and mores of humanity are alien and inconceivable to demons, Satan wrote this strangely poetic military handbook for the enlightenment and edification of his demon armies. A masterpiece expressing Satan's hatred for humanity and himself, the Encyclopaedia includes "Techniques of Stalking and Eating Humans," "Methods of Canning Human Pus," and "Dicing and Slicing Orphaned Children." Why the invasion? During the last century in particular, Hell has become seriously overcrowded. Satan needs more land mass for the damned and to use the human livestock to feed his hungry demon invaders. Since this book is the 666th commemorative edition, this Encyclopaedia contains special commemorative material. Martin Olson's savage wit provides the firepower for a preposterous literary feat unaccomplished since Mark Twain passed—channeling the real voice of Satan. Over the past fifteen years, Olson has written and produced nine comedy specials, inflicted on the populace via CBS, HBO, Showtime, Cinemax, and A&E.

Evil Readers, as ye partake of Encyclopaedia of Hell, rejoice! The hateful sequel written by Satan has arrived! After Hell's army conquers Insignificant Earth and devours the human race in a celebratory feast, Lord Satan reveals that he will now journey deep into the universe to find the throne of the despised Creator. There Satan will depose God and take his rightful place as Emperor of Existence. However, hellish complications quickly arise: exposed to the rays of the Celestial Sun, Satan's horns and claws become brittle and his undercarriage breaks out in a rash. And a hypnotic, ghostly nun named Debbie seduces the naïve King of Hate into taking a wrong turn. Now Lord Satan must face Oblivion when he enters Heaven's labyrinthine Library, from which there is no escape. But when the Armies of Hell arrive to find Lord Satan and conquer Heaven, instead they find a disturbing secret at the core of Creation too shocking for even a demon to stomach. Martin Olson's savage wit provides the firepower for a preposterous literary feat unaccomplished since Mark Twain and Ambrose Bierce passed—channeling the real voice of Satan. As a satirist, Olson has inflicted numerous comedy series on the populace via HBO, CBS, Showtime, Comedy Central, Disney, and FX.

THE present series of lectures is designed to give a broad and general view of the long sequence of the migratory movements of the northern barbarians which began in the third and fourth centuries A. D. and cannot be said to have terminated till the ninth. This long process shaped Europe into its present form, and it must be grasped in its broad outlines in order to understand the framework of modern Europe. There are two ways in which the subject may be treated, two points of view from which the sequence of changes which broke up the Roman Empire may be regarded. We may look at the process, in the earliest and most important stage, from the point of view of the Empire which was being dismembered or from that of the barbarians who were dismembering it. We may stand in Rome and watch the strangers sweeping over her provinces; or we may stand east of the Rhine and north of the Danube, amid the forests of Germany, and follow the fortunes of the men who issued thence, winning new habitations and entering on a new life. Both methods have been followed by modern writers. Gibbon and many others have told the story from the side of the Roman Empire, but all the principal barbarian peoples - not only those who founded permanent states, but even those who formed only transient kingdoms - have had each its special historian. One naturally falls into the habit of contemplating these events from the Roman side because the early part of the story has come down to us in records which were written from the Roman side. We must, however, try to see things from both points of view...
