This study explores the effect of English as medium of instruction in Geography teaching in Grade 11. It focuses on classroom interaction where both the teachers and learners have limited proficiency in the language of instruction. It reflects on the challenges experienced by Afrikaans speaking teachers in mediating Geography lessons to isiXhosa speaking learners in Grade 11 at one secondary school in the Western Cape.

RBI is an acronym of Reserve Bank of India, the central bank of our country. RBI is responsible for issuing currency notes, credit control and framing of monetary policies. The Reserve Bank of India is the main institution that regulates and controls the whole banking system of India. RBI conducts various examinations to recruit officers for its various branches. One of them is known as the RBI Grade B exam which comprises three different grades. These three different grades are DR (Direct Recruit), DEPR (Department of Economic Policy and Research) and DSIIM (Department of Statistics and Information Management). This banking exam is very popular among aspirants who want to build up their career in the banking sector.

Opportunities for developing innovative approaches in teaching and learning geography have been rapidly increasing in recent years. This is in part because of the spread of new technologies that allow access to geographic information and geographic geo-media resources. These new tools offer broad access to information and open data sources. They have revolutionised the way in which teachers of geography can work with pupils and students. "Education for Digital Earth" is now possible. As such, the exclusive use of traditional approaches to the teaching of geography is no longer reasonable today. The European Commission-funded network initiative, digital-earth.eu, promotes innovation and best practices in the implementation of geo-media as a digital learning environment for school learning and teaching. This book, supported by EUROGEO, analyses the main challenges facing geographical education – curriculum, methodology, teacher education and training and geospatial technologies – and illustrates different examples of the use of geoinformation in geographical education in several European countries.

World Geography is designed to help students better understand the importance of geography and the world in which they live. This 128-page resource integrates current technology and digital learning opportunities and activities. Using the five themes of geography, teachers can give students the opportunity to think globally and help prepare them for life in a diverse society. Features reading and writing activities aligned to ELA Common Core, plus includes questions that are aligned to higher-order thinking skills. This book also includes Gequests, Global Summit Activity, Glossary of Geography Terms, Websites, Resources, and Suggested Activities. Mark Twain Media Publishing Company specializes in providing captivating, supplemental books and decorative resources to complement middle- and upper-grade classrooms. Designed by leading educators, the product line covers a range of subjects including mathematics, sciences, language arts, social studies, history, government, fine arts, and character.
