2015 marks the beginning of the UN Decade of Sustainable Development. Sustainable development involves the incorporation of ecological principles in technology development and dissemination. It is in this context that the present book by Ms Megha Aggarwal is a timely contribution. The book covers a wide range of information dealing with agriculture, energy, engineering, medicine, architecture, finance, and environmental management. It should help the young students to become the architects of a sustainable future for our country. I hope the book will be read and used widely. ☐ MS SWAMINATHAN Father of the Indian Green Revolution As India gradually moves towards a ☐green☐ economy, new avenues of employment are opening up for today's youth. For students thinking about future course and career options, this one-of-its-kind handbook offers a rich body of information required to turn a green interest into a future opportunity. From environmental engineering, environmental science, and environmental law to agriculture, climate science, and zoology ☐ it profiles a range of undergraduate and postgraduate courses, and the broad spectrum of careers they lead to. Peppared with anecdotal accounts from well-known professionals and a handy listing of useful resources, The Green Guide to Environmental Courses and Careers is a must-have for any student keen on harnessing a green passion. The book is a timely contribution.... It should help the young students to become the architects of a sustainable future for our country. ☐ MS Swaminathan

On vocational guidance in Indian context.

The International Conference on Lasers and Applications was held in Rio de Janeiro, Brazil from 29 June to 3 July 1980. This conference was held to commemorate the memory of Professor Sergio Porto who died suddenly about one year earlier while attending a laser conference in the Soviet Union. The sub ject matter covered the active areas of laser devices, photochemistry, non linear optics, high-resolution spectroscopy, photokinetics, photobiology, photomedicine, optical communication, optical bistability, and Raman spec troscopy. The conference was attended by over 150 people including scientists from Japan, France, England, West Germany, Norway, Italy, Brazil, Chile, Argentina, India, Canada, and the United States. Amemorial session attended by members of the Porto family and ranking Brazilian government dignitaries preceded the start of the conference. The location of the conference in Rio de Janeiro, Brazil, was chosen be cause it was in the homeland of Sergio Porto and provided an opportunity for his friends, colleagues, and countryrmen to pay homage to him. The setting on Copacabana Beach afforded access to the lovely beaches, restaurants, and nightlife of one of the most beautiful and exciting cities of the world. There were tours of the city together with a banquet that featured a performance by one of the best Samba Schools in Rio. Financial support from many sponsors in Brazil and the United States is gratefully acknowledged in making this working conference a fitting tribute to the memory of Professor S.P.S. Porto.

Authored by an Astronomy and Space Engineer this book, the first of its kind, explores in details the various prospects for an Indian student to pursue astronomy as a career. It is like a single shelter where any interested student will find ample information and suitable guidance to pursue astronomy as a career. It will also help especially Indian parents and faculties of various institutes to guide prospective students for opting a career in astronomy. Written in lucid style, the book is a valuable asset for any interested student having a dream of 'Becoming an Astronomer'.

We are happy to place this book "LASERS" in the hand of T.Y.B.Sc students and teachers of Pune University. This book envisages the revised syllabus which is implemented from the academic year 2015-16. This book gives a brief description of Lasers (Physics) which is as per the latest curriculum. The theory is presented in brief with the principle wherever necessary and its explation. At the end of each chapter necessary questions are included. We think that the students and teachers will find this book most useful while studying in B.Sc.
