"Thirty-four short contributions make this akin to a reference work, albeit one varying greatly in flavor, topic, and scholarliness, i.e., from group self-promotion to politico-legal endorsements to scholarly pieces. Among the scholarly topics: colonial women, 19th-century women, feminist organizational theorizing, popular music, caesarean births, and women at the Univ. de Costa Rica (where they are one-third of faculty). Almost all social-feminist topics are touched on, save perhaps language; sexuality, violence, disability, class/race/gender, art and artists, and more"--*Handbook of Latin American Studies*, v. 57.

In the 1990s the French literary arena was enlivened by the emergence of a new generation of women writers. This book selects six of its most distinctive voices and addresses important questions about the very new in French women's writing. What are young women choosing to write about? What do they tell us about changing perceptions of feminine identities? What does it mean to write (and to read) as women at the start of the new millennium? An introductory chapter explores key issues such as the woman writer in the public imagination and continuity and change within French women's writing since the 1970s. It also highlights thematic threads which recur across the work of the authors studied: history and time, wandering and exile, self and other, the body and sexuality and writing and telling. The remaining chapters propose productive approaches to the fictional worlds of Marie Darrieussecq, Virginie Despentes, Marie Ndiaye, Agnès Desarthe, Lorette Nobécourt and Amélie Nothomb through close readings of their most challenging, popular or telling texts. They focus on perennial preoccupations in women's writing which are given new treatment by these writers and discuss important developments such as uses of the pornographic, myth and fairy tale and parody and irony in new women's writing.

An updated edition of the Sunday Times Bestseller Britain's best-known classicist Mary Beard, is also a committed and vocal feminist. With wry wit, she revisits the gender agenda and shows how history has treated powerful women. Her examples range from the classical world to the modern day, from Medusa and Athena to Theresa May and Hillary Clinton. Beard explores the cultural underpinnings of misogyny, considering the public voice of women, our cultural assumptions about women's relationship with power, and how powerful women resist being packaged into a male template. A year on since the advent of #metoo, Beard looks at how the discussions have moved on during this time, and how that intersects with issues of rape and consent, and the stories men tell themselves to support their actions. In trademark Beardian style, using examples ancient and modern, Beard argues, 'it's time for change - and now!' From the author of international bestseller *SPQR: A History of Ancient Rome*.

Drawing on the 'collective biography' of leading feminist scholars from around the world and current evidence relating to gender equality in education, this book employs methods including biographies, life histories, and narratives to show how the feminist project to transform women's lives in the direction of gender and social equality became an educational and pedagogical one. Through careful attention to the ways in which feminism has transformed feminist academic women's lives, the author explores the importance of education in changing socio-political contexts, raising questions about further changes that are necessary.

While feminists have long recognised the importance of self-managed, alternative media to transport their messages, to challenge the status quo, and to spin novel social processes, this topic has been an under-researched area. Hence, this book explores the processes of women's and feminist media production in the context of participatory spaces, technology, and cultural citizenship. The collection is composed of theoretical analyses and critical case studies. It highlights contemporary alternative feminist media in general as well as blogs, zines, culture jamming, and street art.

"The Oxford Handbook of Feminist Approaches to the Hebrew Bible brings together 37 essential essays written by leading international scholars, examining crucial points of analysis within the field of feminist Hebrew Bible studies. Organized into four major areas -

globalization, neoliberalism, media, and intersectionality, the essays collectively provide vibrant, relevant, and innovative contributions to the field. The topics of analysis focus heavily on gender and queer identity, with essays touching on African, Korean, and European feminist hermeneutics, womanist and interreligious readings, ecofeminist and animal biblical studies, migration biblical studies, the role of gender binary voices in evangelical-egalitarian approaches, or the examination of scripture in light of trans women's voices. The volume includes essays examining the Old Testament as recited in music, literature, film, and video games. In short, the book offers a vision for feminist biblical scholarship beyond the hegemonic status quo prevalent in the field of biblical studies, in many religious organizations and institutions that claim the Bible as a sacred text, and among the public that often mentions the Bible to establish religious, political, and socio-cultural restrictions for gendered practices. The exegetically and hermeneutically diverse essays demonstrate that feminist biblical scholarship forges ahead with the task of engaging manifold issues and practices that keep the gender caste system in place even in the early part of the twenty-first century. The essays of this volume thus offer conceptual and exegetical ways forward at a historic moment of global transformation and emerging possibilities"--
